Brackets

For bowlers/team registering for an existing bracket:

Tap the Brackets button and the Bracket Options popup will be displayed, tap Register for a Bracket and Bracket Registration popup will appear.

Tap on the “Tap to select bracket picker”, select bracket, then tap Done. Only brackets open for registration will appear.

Enter full name, your phone number, and qualifying bowler/team average (NOT handicap value). Tap the Register button. If entering a scratch bracket, then enter 0 for average.

For bowlers/team entering score:

Tap the Brackets button and the Bracket Options popup will be displayed, tap View Brackets and the Tournament Brackets page will appear.

Scores are entered on the Tournament Brackets page. Organizer will activate the bracket once the registration period is completed.

Tap on the “Tap to select bracket picker”, select bracket, then full bracket with names will appear.

Turning device sideways may help in locating your name. Tap your name and then enter your scratch score within the Scratch Score box. If handicap bracket, handicap result will be calculated automatically.

Tap the New Score Verification button to take a picture your score. Form of verification will be determine by the Bracket Organizer. This can be in the form of a score sheet, screenshot, etc..

Once these steps are completed, tap the Update button toward the top of the page.

Sidepots - Instructions

For Bracket Organizers:

Tap the Brackets button and the Bracket Options popup will be displayed, tap Tournament Organizer and the Bracket Management page will appear.

Within Bracket Management, the Bracket Creation button is for creating new brackets or updating existing brackets:

Enter all requirements on the Bracket Management page, then tap Add/Update Bracket button.

Bracket status will allow for registration and opening the bracket for play. Make sure this is adjusted accordingly.

The Assign Slots button is for slot assignment and for populating a bracket:

Slots can be assigned manually (seeding purposes) or randomly.

Manual assignment is done by tapping the registered bowler/team line and entering a Round 1 slot number.

Random assignment is accomplished by tapping the Random Slot Generator button.

Once all slots are assigned and bracket is ready to be activated, tap the Build Bracket button to populate the bracket.

Make sure you change the bracket status to active so bowlers/team can access the bracket thru the Tournament Brackets page (see updating existing brackets above).

Bracket Notes:

Organizer has update access to all bracket slots on the Tournament Brackets page, including names, averages and scores.

Bowler/Team can only update score within their bracket slot on the Tournament Brackets page.

Open slots or absent bowlers/teams is managed by the Bracket Organizer on the Tournament Brackets page. If needed, Organizer can enter "Bye" in these situations.

Resolving ties is at the discretion of the Bracket Organizer. For bracket advancement, Organizer must enter higher score for winner of tiebreaker.
